Veterans Christian Network, Inc.

Veterans Only Tiny Home Community

Lombard, Illinois, January 24, 2019

Largest Tiny Home Community in the United States for Homeless Veterans and their Families Only, to be built by Veterans Christian Network in DuPage County Illinois.

Veterans Christian Network, while still a young organization, has demonstrated the fiscal responsibility necessary to ensure effective allocation of funds received via a variety of revenue streams, including donations and corporate sponsorships. Our activities are overseen by a group of well-qualified individuals. Our diverse staff members have ties to the community, and thus possess the unique ability to relate to the target demographic. Additionally, our Board of Directors is comprised of a professional group of talented individuals who are dedicated to committing their time and resources to building a stronger community.

We are looking at building a tiny home community that is eco-green with solar panels bought and installed by Futurez NFP Incorporation of which they are planning to train unemployed veterans to install the solar panels. The project is to be within DuPage County on a site that we are currently reviewing now, and if approved the site will be able to house between 4,000 to 6,000 homeless veterans and their families, and we are also looking at other properties to purchase other properties for other phases to this project. If the other properties are purchased it will allow us to house another 1,000 to 2,000 homeless veterans and their families.

Veterans Christian Network is in the starting phases of the planning for this project and is still seeking funding for this project through grants, corporate sponsorships, and donations. Veterans Christian Network has been informed by their architects this will be the largest project they have ever seen in the country and would be proud to be a part of the project, of which we agreed to have them as a part of this project. The name of the architect firm will be released later. This firm is also creating a PowerPoint presentation for a view of how our project will be seen once completed.

This project does not only need funding but, Veterans Christian Network needs support from the general public, along with local, state, and national politicians so that we are able to move forward with this project. If someone wishes to become a part of this project, or to donate please contact us at veteranschristiannetwork.com or veteranschristiannetwork.org to contact us.
